FOREST

ONCE YOU SEE IT,
IT STICKS WITH YOU.

A decorative border frames the page, featuring stylized trees with dark, glossy trunks and light blue, cloud-like canopies. The background is white with a pattern of thin, light blue lines radiating from the center.

BRING HOME DRAMA

Ashish Bajoria and Suman Kanodia founded Scarlet Splendour in 2014. Over the years, they collaborated with some of the most talented designers in Europe and the U.S.A., created exclusive luxury furniture collections that go beyond ordinary imagination and design limitations to become works of art.

Today, we are delighted to bring you the FOREST designed by Marcantonio. This luxurious collection of sculptural furniture and quirky objects was brought to life at the 10 Corso Como during the Milan Design Week 2023. Once you see it, it sticks with you!
